

Enoch Aboluwarin Abe

DATA SCIENTIST/ML ENGINEER

Talented BSc. Mechanical Engineering graduate with a dynamic and systematic approach to learning information. Open and clear worker with disciplined execution. Extensive knowledge of data science with Python/machine learning and required software skills seeking opportunity for a role as a Data Scientist / ML Engineer

WORK EXPERIENCE

DATA SCIENCE INTERN HAMOYE

08/2021 - 11/2021

Hamilton

Achievements/Tasks

- Successfully executed numerous Machine Learning Projects.
- Achieved the first place in Premiere Project Presentation titled 'EV Price prediction'.
- Attained 87/100 for Capstone project presentation titled 'Telecom Customer Churn prediction'.

Contact : LinkedIn - <https://www.linkedin.com/company/hamoyehq/>

NETWORKING/AUTOMATION INTERN NIMBLES ENGINEERING COMPANY

08/2021 - 12/2021

Ibadan, Nigeria

Achievements/Tasks

- Acquired skills on the network protocols, how they work and are implemented. In addition I led real life projects e.g setting up LAN network via CISCO router.
- Obtained knowledge on programmable logic controllers, their various types, their differences via specifications and how they function.

INDUSTRIAL PLACEMENT CONTROL SYSTEMS INTERNATIONAL

01/2020 - 03/2020

Lagos, Nigeria.

Achievements/Tasks

- Delivered high quality documents, spreadsheets and presentations for internal and customer.
- Arranged physical and digital files for easy access by authorized personnel.

Machine Learning Engineer AlphaWorld

12/2022 - 10/2023

Dubai

Achievements/Tasks

- Wrote, Implemented and Maintained deep learning algorithms
- Data structures

EDUCATION

SECONDARY SCHOOL Redeemers High School

07/2010 - 07/2016

UNIVERSITY

Obafemi Awolowo University

01/2017 - 07/2024

Courses

- B.sc Mechanical Engineering

SKILLS

Python

Data Analysis

Data Visualization

Statistics and Maths

Machine Learning.

Django

Hadoop(Big Data)

AWS

API

LLM

Computer Vision

VOLUNTEERING EXPERIENCE.

Cowrywise Student Ambassador.

Social Media Tasks.

Marketing.

FREELANCE EXPERIENCE

Implemented Deep Neural Network Algorithms on Datasets for clients.

Implemented and fine-tuned convolutional neural networks for clients.

Trained and fine-tuned large language models and built efficient RAG pipelines.

Deployed functional ML web APIs on AWS

LANGUAGES

English.

Full Professional Proficiency

INTERESTS

Music, Cryptocurrency, Basketball, Fashion Design.
